

Writing an Information Poster

Topic: Your school wants to participate in Countryside Clean-up Challenge organized by a green group. Complete the following sections of the information poster to promote the event and to encourage students and their families to take part.

Countryside Clean-up Challenge

Sunday, 12th March, 2018

Aim: To help clean-up Hong Kong country parks

Why Take Part

In recent years, huge amount of rubbish is being disposed every minute, affecting both environment and human. Countryside is supposed to be a healthy clean place with fresh air. However, many people leave trash on the ground, polluting the countryside. This is the reason why you should take part in this countryside Clean-up Challenge. The second reason for joining this event is to educate the students about littering and its effects on the natural world. Some people might not know the consequences of littering and you can teach them so that they must not leave rubbish next time and raise the awareness on environmental protection.

Where To Clean Up

The location of this event is Ma On Shan Country Park. We will be cleaning the Maclehorse Trail, which the length is around 10 km. We will start from Pak Tam Chung and end at Tuen Mun.

In case you don't know much about this trail, let me tell you more about it. Maclehorse Trail is the earliest long-distance hiking trails in Hong Kong. Most of the trail revolves around mountains, which means you can enjoy the spectacular scenery. I ensure you will not be bored when cleaning the trails.

What To Wear And What To Bring Along

For clothing, I highly suggest you should wear hats and sunglasses as the sun will shine brightly in the sky. Also you should wear light clothes for the same reason. We will rest regularly to prevent you from exhaustion, so you should bring some water, staying hydrated is crucial in a hot day. One last thing to remind you is that you should bring your sunscreen along that day.
